Meeting Minutes Approved

The MSRC unanimously approved the minutes of the October 20, 2016 meeting. Those approved minutes are attached for your information (*Attachment 1*).

FYs 14-16 Alternative Fuel Infrastructure Program

As part of the FYs 2014-16 Work Program, the MSRC allocated \$5,000,000 for the implementation of new and expanded CNG and LNG refueling stations and modification of maintenance facilities to accommodate gaseous-fueled vehicles. A Program Announcement, #PA2015-12, was developed and released on May 1, 2015, with an open application period commencing that day and closing July 29, 2016. To date, the MSRC has awarded a total of \$2,542,000. Consideration of Omnitrans' application was delayed while clarification was sought, and \$500,000 was reserved pending final action on that application; the remaining \$1,958,000 was reverted to the AB 2766 Discretionary Fund. Based upon additional clarification provided by Omnitrans, the MSRC-TAC recommended and the MSRC approved a contract award to Omnitrans in an amount not to exceed \$500,000 for the expansion of their existing limited access CNG station on Arrow Highway in Montclair, expansion of their existing limited access CNG station on West 5th Street in San Bernardino, and installation of a

new public access CNG station on I Street in San Bernardino, as part of the MSRC's FYs 2014-16 Work Program. This contract award will be considered by the SCAQMD Board at its December 2, 2016 meeting.

FYs 14-16 Near-Zero Natural Gas Engine Incentives Program

As part of the FYs 2014-16 Work Program, the MSRC allocated \$10,000,000 to provide funds towards the purchase cost of the Cummins Westport ISL G Near Zero natural gas engine. This engine is certified to the CARB Optional NO_x standard of 0.02 g/bhp-hr. A Program Announcement, #PA2016-11, was developed and released on June 3, 2016. Eligible vehicle types include urban transit buses and refuse collection trucks. For qualifying transit buses, the MSRC allocated \$7.5 million, with a maximum per-entity award amount of \$1.875 million, and will award \$15,000 per vehicle for either new bus purchases or the re-power (engine replacement) of existing buses. For qualifying refuse trucks, the MSRC allocated \$2.5 million, with a maximum per-entity award amount of \$625,000, and will award \$25,000 per vehicle, for re-powers only. The Program Announcement includes an open application period commencing July 5, 2016 and closing January 6, 2017. To date, the MSRC has awarded a total of \$4,270,000. An additional application has been received. The MSRC-TAC recommended, and the MSRC approved, a contract award to Omnitrans in an amount not to exceed \$945,000 for the purchase of 39 new transit buses and the re-power of 24 existing buses, as part of approval of the MSRC's FYs 2014-16 Work Program. This contract award will be considered by the SCAQMD Board at its December 2, 2016 meeting.

FYs 12-14 Local Government Match Program

As part of the FYs 2012-14 Work Program, the City of Yucaipa was awarded an \$84,795 contract to install bicycle lanes on portions of five roadways. While attempting to resolve issues with the contractor performing the work, the City did not request a contract term extension from the MSRC prior to the contract's July 1, 2016 expiration date. The City subsequently requested, and the MSRC approved, a new/replacement nine-month contract with the City in the amount of \$84,795. This replacement contract will be considered by the SCAQMD Board at its December 2, 2016 meeting.

Contract Modification Request

The MSRC considered a contract modification request for the City of Anaheim, Contract #ML12041, which provides \$68,977 to install electric vehicle charging infrastructure, and approved a one-year term extension.

Received and Approved Final Reports

The MSRC received and unanimously approved one final report summary for Southern California Regional Rail Authority, Contract #MS16085, which provided \$78,033 to implement Special Metrolink Service to Auto Club Speedway.

Contracts Administrator's Report

The MSRC's AB 2766 Contracts Administrator provides a written status report on all open contracts from FY 2004-05 through the present. The Contracts Administrator's Report for November, 2016 is attached for your information (*Attachment 2*).

ACTION CALENDAR (Items 7 through 9)

Agenda Item #7 – Consider Appointment of John Kato as Primary, and Andre Freeman as Alternate, to the MSRC-TAC in the Position of “Air Pollution Control Expert”

Ray Gorski, MSRC Technical Advisor, reported on this item.

The MSRC-TAC currently has a vacancy in the position of Air Pollution Control Expert. This position is mandated under the California Health & Safety Code Section 44244(c). Mr. John Kato has volunteered to fill this vacancy on the MSRC-TAC. Mr. Kato currently serves as Deputy Director of the Fuels and Transportation Division of the California Energy Commission (CEC). Mr. Andre Freeman has volunteered to serve as alternate for this position. Mr. Freeman currently serves as a Supervisor in the Fuels and Transportation Division of the CEC.

MSRC Vice Chair Larry McCallon asked if others had alternates.

Ray Gorski, MSRC Technical Advisor, responded with yes. This type of appointment does not have an automatic alternate so the MSRC would be viewing both individuals individually on their credentials.

MSRC Member Greg Winterbottom added that he supported this individual wholeheartedly; after hearing him speak at the Retreat he was overwhelmed by the wealth of knowledge. With his consistent belief that people should be at meetings, he hoped that the MSRC will fund flying Mr. Kato down to the meetings. He knows that Mr. Kato's agency will probably not fund the cost, but that it is much better to have the interaction of the group.

Ray Gorski, MSRC Technical Advisor, concurred. We will endeavor to assist Mr. Kato, to the extent that is allowed, to have him or his alternate present at the MSRC-TAC meetings.

ON MOTION BY MSRC MEMBER GREG WINTERBOTTOM, AND
SECONDED BY MSRC ALTERNATE BEN BENOIT, THE MSRC
UNANIMOUSLY VOTED TO APPROVE APPOINTMENT OF JOHN KATO
AS PRIMARY, AND ANDRE FREEMAN AS ALTERNATE, TO THE MSRC-
TAC POSITION OF "AIR POLLUTION CONTROL EXPERT."
AYES: BENOIT, MCCALLON, MARTINEZ, ROYBAL-SALTARELLI,
VERES, WINTERBOTTOM.
NOES: NONE.

ACTION: No further action is required.

FYs 2014-16 WORK PROGRAM

Agenda Item #8 – Consider Application Received under the Alternative Fuel Infrastructure Program

Cynthia Ravenstein, MSRC Contracts Administrator, reported on this item.

As an element of their FYs 2014-16 Work Program, the MSRC allocated \$5 million to fund new and expanded CNG and LNG refueling stations, as well as modifications to vehicle maintenance facilities. A Program Announcement was released on May 1, 2015 and closed on July 29, 2016. The MSRC has previously awarded a total of \$2,542,000. Consideration of one application for three locations, from Omnitrans, was delayed while clarification was sought. The amount of \$500,000, requested by Omnitrans, was reserved pending final action on this application. Omnitrans has now clarified the project parameters at the three locations. One of the locations, on "I" street in San Bernardino, would install an entirely new public access CNG fueling station. The location on Arrow Highway in Montclair would replace an existing limited access LNG station with a CNG station that uses pipeline gas. It would also involve having another 41 buses use the station that haven't been using it previously, which entails substantial increase in the throughput. The Subcommittee felt that this could be considered an expansion of the existing station. The location on 5th Street in San Bernardino would also replace the existing

limited access LNG station with a pipeline CNG station, but there would not be any projected increase in the throughput. So the Subcommittee felt, and the TAC concurred, that this project would really not fall in the scope of the MSRC's program. MSRC was funding new stations or expanded stations, but there already been a station here, and they are just changing where they are getting their source of fuel, not increasing the throughput or the capacity.

MSRC Vice Chair Larry McCallon asked if there were talks with Omnitrans in regards to ideas of increasing the throughput or if they are not going to do that.

Cynthia Ravenstein, MSRC Contracts Administrator, replied that they were asked if there was any intention of increasing the throughput and they replied no, that this is just to serve the same buses that they were already serving with the existing LNG station. But they felt that it would be more efficient for them to use the pipeline gas and that they were going to save money that way.

MSRC Member Greg Winterbottom asked if they are increasing any of the technology or are they getting anything better than what they had in the past and if there is a way we can help them.

Ray Gorski, MSRC Technical Advisor, replied that as far as technology is concerned what they could do is ensure that they are a closed loop system. Methane leakage is one of the concerns for natural gas dispensing. That said, he is not aware that there is any closed loop system being proposed for this station, but it can be checked if the MSRC would like us to go back and investigate.

MSRC Vice Chair Larry McCallon commented that he thought it would be good.

Ray Gorski, MSRC Technical Advisor, also commented that it is not on the agenda today but that a significant application was received from Omnitrans to purchase near-zero engines.

ON MOTION BY MSRC MEMBER GREG WINTERBOTTOM, AND
SECONDED BY MSRC ALTERNATE BEN BENOIT, THE MSRC
UNANIMOUSLY VOTED TO DEFFER ITEM #8 FOR ONE MONTH.
AYES: BENOIT, MCCALLON, MARTINEZ, ROYBAL SALTARELLI,
VERES, WINTERBOTTOM.
NOES: NONE.

ACTION: This item is deferred to the November 17, 2016 MSRC meeting.

FYs 2016-18 WORK PROGRAM

Agenda Item #9 Joint Retreat Review and Update on the FY 2016-'18 Work Program Development Process

[MSRC Member Michael Antonovich arrived during the presentation of this item at 2:41 p.m.]

[MSRC Member Rex Richardson arrived during the presentation of this item at 2:44 p.m.]

Ray Gorski, MSRC Technical Advisor presented on this item.

The MSRC and MSRC-TAC held their joint Retreat on September 15, 2016. The MSRC will review outcomes of the Retreat and receive an update on current MSRC-TAC activities in the 2016-'18 Work Program Development Process.

The SCAQMD is in a position where their priorities have to be reduction of ozone precursors and particulate matter emissions.

MSRC Vice Chair Larry McCallon asked how do we clarify the air quality benefits with this program. Someone presents a proposal how do we know how much NO_x or PM 2.5 is being mitigated.

Ray Gorski, MSRC Technical Advisor, answered it is really a function of categories. For example, local match historically has focused on vehicles and infrastructure. Infrastructure is the enabling part of the overall all fuel structure. You quantify the vehicles. They have a CARB-certified emissions level which is specific to the engine they are using. We have that information. We can look at what they buy in lieu of that vehicle and do a direct comparison and quantify the air quality benefits. The ones that become a little more difficult are those that require behavior change because you have to attempt to anticipate what an individual's response is going to be to that program that is made available to them. What we continue to do for example, for active transportation, last year we had active transportation as an element of the Work Program, but we required the contractors to do before and after traffic or pedestrian counts just to demonstrate what is the actual improvement in bicycling and pedestrian access associated with the MSRC investment being made. So all strategies can be quantified, some of them with a much higher degree of precision. Those which are related to vehicles which are certified or near zero engines technologies are absolutely available. Not only are they the easiest to do, but they give you the most assurance that you are getting the air quality benefit.

MSRC Vice Chair Larry McCallon asked if we put that information on the application so that it is quantified and then archived.

Ray Gorski, MSRC Technical Advisor, responded that we do have an archive. As far as using as evaluation criteria, there are two strategies which can be done. The first is to have complete evaluation criteria, meaning that everyone presents theirs and you look at them all and you rank them and you fund them in rank order. The second way to do it, which for example the MSRC has done with Local Match, is that you simply set a high bar to begin with, meaning this is the minimum technology, the minimum emission reduction that we'll allow. But if you hit this bar then you'll have the probability to receive some funding. That has worked out a little better for cities and counties for example. One thing that we should be discussing is should that bar should be raised? Because it all comes down to, are you getting the return on the investment you are making? I can assure you, you are not getting the return you were getting 25 years ago. There is room for discussion to see if we can do better.

MSRC Member Michele Martinez asked on the matching funds for cities and counties, what is the thing that they have applied for most.

Ray Gorski, MSRC Technical Advisor, answered vehicles and infrastructure.

MSRC Member Michele Martinez asked if a breakdown of the percentage can be provided.

Ray Gorski, MSRC Technical Advisor, replied absolutely. He also added that cities and counties are still subject to SCAQMD fleet rules, which requires them to purchase alt fuel when they make a purchase of a medium or heavy duty vehicles.

MSRC Member Greg Winterbottom asked what about repowers.

Ray Gorski, MSRC Technical Advisor, replied repowers too. But that they don't do a lot of repowers. Bottom-line is these vehicles carry a cost premium. The MSRC funding, matched with their subvention funding, or other funding if it is allowed, allows them to offset that incremental cost of the vehicle. So it allows them to purchase the vehicles which fulfill their obligations under

the South Coast District fleet rules. That is why for the last 17 years this program has been so popular. Fleet rules were adopted beginning in 1999 through 2000. I can assure you those rules would not have been adopted had the MSRC not been there to help mitigate some of that additional cost. Those were ongoing discussions between the district and the MSRC. The partnership has been great for the last quarter century. The thought is now we simply have to take a step back and take a look and make sure all parties are still getting the benefits that are associated with the investments that are being made.

The first thing that we are asking your permission to do is form three subcommittees to look at your core programs, come back to you with recommendations as to how they can potentially be improved, modified and deleted, which I do not think is probable but it is all up to you, to make sure that they are all brought up current to at least get you what your investment warrants.

MSRC Member Greg Winterbottom asked if the subcommittees will be made up of board members or are they going to be TAC.

Ray Gorski, MSRC Technical Advisor, answered that right now the next step is based on your approval today. Assuming that you approve us to get started, what we will do is send out an invitation to form three subcommittees. If MSRC members would like to participate in those subcommittees, you are absolutely welcome to.

MSRC Member Greg Winterbottom commented that the cities have a pretty big stake in all this. It would be pretty interesting to get members from cities and counties to give their input.

MSRC Member Michele Martinez asked when you talk about leveraging funds beyond the cities and counties, besides them on these matching funds are there any other funds that they are leveraging. Is there is a list of that and can it be provided, just so that we can understand how everything is being actually funded.

Ray Gorski, MSRC Technical Advisor, replied absolutely. We ask that cities report their co-funding. In all honesty you are going to see that a lot of it is general fund. It will be Subvention funds, general fund and MSRC.

MSRC Member Michele Martinez asked if that will be part, since it is infrastructure, of the CIP.

Ray Gorski, MSRC Technical Advisor, replies that it actually in part will be Capital Improvement Program.

MSRC Member Michele Martinez commented that she just asked that question because of her equity perspective.

MSRC Vice Chair Larry McCallon asked if there is a consensus that the TAC should move ahead with those subcommittees.

MSRC Member Greg Winterbottom commented that some cities' members from the board should at least be involved.

Ray Gorski, MSRC Technical Advisor, commented just trying to do the math realistically, if the core programs are funded you are still going to have on the order of 15 to 20 million dollars available to you. So the question then is what else. So the discussions are going to include identification of potential new Work Program ideas. At the Retreat we talked about trends that are very innovative such as the innovation category that could have something similar to like the "X

Prize” - a very out there idea, but cool, and the question is what is going to get people interested, what is going to motivate them in order to advance our cause. So that is one that really caught my attention. Again will continue to engage regulatory agencies; it’s a very complex funding environment right now. This is why I want to make sure that we are identifying holes in their funding programs and seeing new opportunities. It was discussed at the TAC leadership meeting that there might be a desire to reserve a portion of the MSRC’s money, to allow you to have that quick response flexibility that most other agencies do not have the ability to do. The TAC has a lot of ideas but they are seeking the input of the MSRC.

MSRC Member Michele Martinez asked if it is possible to get a listing of what the TAC said. That it will be helpful to be in sync.

Ray Gorski, MSRC Technical Advisor, replied sure. The discussion with the TAC was pretty lively. There were a lot of good thoughts.

MSRC Vice Chair Larry McCallon asked if there was any input from the MSRC members.

Ray Gorski, MSRC Technical Advisor, added that something will be put together to show where the money really comes from.

MSRC Member Dolores Roybal Saltarelli commented that considering that it was her first Retreat, it was very informative. She appreciated hearing all the presentations and it really helped in terms of thinking where we want to go because Ray gave that very insightful chronology of where we started. The challenge is large and focusing on doing something more is the step in the right direction.

MSRC Vice Chair Larry McCallon acknowledged the arrival of MSRC Member Michael Antonovich and MSRC’s newest member Rex Richardson.

MSRC Member Rex Richardson commented that he was invited by SCAG President Michelle Martinez and that he was unable to make it to the Retreat but that he certainly wanted to be present today. He also wanted to thank the MSRC for the “Go Human” funding for Long Beach. He received feedback that this event was the most well attended “Go Human:” event that they ever had. So the money was certainly put to good use.

MSRC Member Michele Martinez commented that at the Retreat it was discussed about innovation and technology. Moving forward, how do we continue to get the word out about the MSRC continuing to use technology to make that happen? It is going to be imperative as we move forward and continue to partner with others and continue to keep that on the radar.

Ray Gorski, MSRC Technical Advisor, added that just to make everyone aware, the bidder’s conference for the new website would be on October 27th. Next year we will have a new website, we are prolific on Facebook and Twitter. But again we recognize that outreach is an important element more so than ever in the MSRC’s history.

Agenda Item #10 – Other Business

MSRC Member Greg Winterbottom shared an image which showed one bus with the amount of NOx and particulates in 1980, and 240 buses for today, which is what we get now for the same amount of NOx and particulates.
