

Workshop on Draft 2016 Annual Network Plan

May 19, 2016

2:00 p.m. to 4:00 p.m.

SCAQMD Headquarters Conference Room CC 3-5

21865 Copley Drive

Diamond Bar, CA 91765

The Annual Air Quality Monitoring Network Plan describes the network of ambient air quality monitors located within the SCAQMD's four county jurisdiction. The Plan includes a review of actions taken during the previous fiscal year, and outlines plans for action in the year ahead.

Background

Federal regulations require that the air quality monitoring network be reviewed annually to identify any need for additions, relocations, or terminations of monitoring sites or instrumentation. After a 30-day comment period, the Plan is submitted to the U.S. Environmental Protection Agency (U.S. EPA) on July 1 of each year.

Annual Air Quality Monitoring Network Plan Workshop

Pursuant to Federal regulations, a draft plan of the 2016 Annual Air Quality Monitoring Network Plan will be made available by May 31, 2016 for public inspection and comment prior to the submission of the final plan to EPA on July 1, 2016. SCAQMD seeks public input to the plan. The Federal requirements and an overview of the plan will be discussed along with the results of the comparability assessment for PM_{2.5} Continuous Monitors.

Agenda

- Federal Requirements
- Monitoring Network Infrastructure
- Minimum Monitoring Requirements
- Special Programs
- Network Assessment Summary
- Recent and Proposed Modifications to the Network
- PM_{2.5} Continuous Monitor Comparability Assessment
